## Authorisation to administer Medication/Supplement

Cat(s) Name:

Period of stay:

-----

I authorise Kirsty Durrell of Fairways Cattery to administer the following medication/supplement for the duration of my cat's stay:

Medicine/Supplement	Dosage	Method

I have discussed the dosage and method with Kirsty and recognise that although she will endeavour to provide my cat with the medicine/supplement stated above, I will not hold her liable for any doses not received or she is unable to administer due to my cat's behaviour (ie refuses to eat, will not take the medicine orally).

I agree/disagree to her trying different methods (ie crushing into a Lick e Lix, using a pill putty) as ways of administering the medicine/supplement, should my cat not take it as directed above.
